

AKHIL JOSEPH V J

Frontend Developer (React.js)

+91-9544810427 — akhiljoseph684@gmail.com — LinkedIn — GitHub — LeetCode

Summary

Passionate Frontend Developer with hands-on experience building responsive web applications using React.js, JavaScript (ES6+), HTML5, and CSS3. Skilled in developing reusable components, integrating REST APIs, and managing application state using Redux Toolkit and Context API. Strong understanding of responsive web design, performance optimization, and version control using Git. Familiar with Node.js, Express.js, and MongoDB. Eager to contribute to building scalable and user-friendly web applications.

Skills

Frontend Development: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Web Design

State Management: Redux Toolkit, Context API

API Integration: REST APIs, JSON, Axios

Backend Development: Node.js, Express.js, MongoDB, JWT Authentication, RBAC, Mongoose ODM

Tools & Platforms: Git, GitHub, Postman, VS Code, npm, Docker

Other Skills: Problem Solving, Data Structures and Algorithms, Debugging, Performance Optimization

Experience

MERN Stack Developer Intern

Oct 2025 – Present

Bridgeon Solutions, Kochi, Kerala

- Developed and maintained responsive web applications using React.js, JavaScript (ES6+), Node.js, and MongoDB.
- Built reusable and scalable React components to enhance maintainability and user experience.
- Integrated REST APIs and collaborated with backend services to deliver seamless functionality.
- Utilized Redux Toolkit and Context API for efficient state management.
- Implemented responsive user interfaces compatible across desktop, tablet, and mobile devices.

Projects

CineXpress – Movie Ticket Booking Application (MERN Stack)

GitHub Repository — Live

Apr 2026 – May 2026

- Developed a full-stack movie ticket booking platform using React.js, Node.js, Express.js, and MongoDB.
- Built responsive and user-friendly interfaces for movie browsing, theatre selection, and ticket booking.
- Implemented Redux Toolkit for state management and seamless user interactions.
- Integrated REST APIs for authentication, movie management, booking workflows, and payment processing.
- Developed reusable React components to improve maintainability and scalability.
- Implemented JWT authentication and role-based access control (RBAC).
- Integrated Razorpay payment gateway and QR code-based booking verification.

E-Commerce Platform (MERN Stack)

GitHub Repository

- Developed a full-stack e-commerce application using React.js, Node.js, Express.js, and MongoDB.
- Designed responsive user interfaces for product browsing, shopping cart, and checkout functionality.
- Built reusable React components and implemented modern frontend development practices.
- Utilized Redux Toolkit for centralized state management and improved application performance.
- Integrated REST APIs for product management, user authentication, and order processing.
- Implemented secure JWT-based authentication and authorization.
- Collaborated with backend services to manage inventory, orders, and user operations.

Education

Higher Secondary Education (Plus Two)

GHSS Puthenthode

Completed: 2025
